ACCESORII USI BATANTE

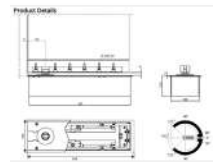

Amortizor mic de pardoseala KOR-212S , satinat

Cod produs: TC-00002872
 Dimensiuni: 250 x 100 x 47,5mm
 Greutate maxima: 80 kg
 Lățime max. panou: 700-900mm
 Tip: Bidirecțional. Stop la 90° și 116°.
 Finisaj: satinat

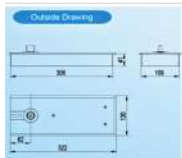

Amortizor pardoseala HEAVY (450kg) KOR-95 , satinat

Cod produs: TC-00002873
 Dimensiuni: 357 x 100 x 72.5mm
 Greutate maxima: 45-450 kg
 Lățime max. panou: 1600mm
 Tip: Bidirecțional. Stop la 90° și 135°
 Finisaj: satinat

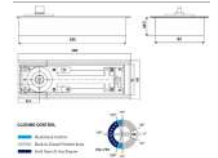

Amortizor pardoseala KOR-40115HW, satinat

Cod produs: TC-00002748
 Dimensiuni: 306 x 109 x 41 mm
 Greutate maxima: 100 kg
 Tip: bidirecțional, stop 90°
 Finisaj: satinat

Amortizor pardoseala KOR-75V

Cod produs: TC-00001263
 Dimensiuni: 285 x 82 x 48.5 mm
 Greutate maxima: 60-150 kg
 Tip: Deschidere max. 360°. Bidirecțional. Stop la 90° și în orice punct de la -105° la 105°.
 Finisaj: satinat

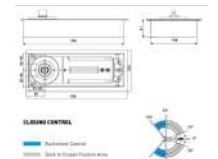

Amortizor pardoseala KOR-8000, satinat

Cod produs: TC-00001262
 Dimensiuni: 306 x 108 x 41 mm
 Greutate maxima: 150 kg
 Tip: bidirecțional, stop 90°
 Finisaj: satinat

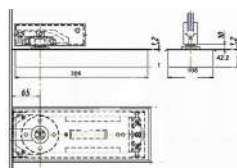

Amortizor pardoseală KOR-84, satinat

Cod produs: TC-00001101
 Dimensiuni: 306 x 108 x 41 mm
 Greutate maxima: 150 kg
 Tip: bidirecțional, stop 90°
 Finisaj: satinat

Amortizor pardoseala KOR-84FA, satinat

Cod produs: TC-00001288
 Dimensiuni: 306 x 108 x 41 mm
 Greutate maxima: 150 kg
 Tip: bidirecțional, stop 90°
 Finisaj: satinat

Balama inferioara cu amortizor incorporat (100kg) KOR-100 BTS, satinat

Cod produs: TC-00002874
 Dimensiuni: 195 x 45 x 75 mm
 Grosime sticla: 8 - 12mm
 Greutate maxima: 100 kg
 Tip: Deschidere MAX. 180° bidirecțional.
 Finisaj: satinat

Capac amortizor pardoseală KOR-84 BTS, black

Cod produs: TC-00001770
 Dimensiuni: 324 x 130 mm
 Finisaj: negru

Capac amortizor pardoseală KOR-84 BTS, gold

Cod produs: TC-00001771
 Dimensiuni: 324 x 130 mm
 Finisaj: gold

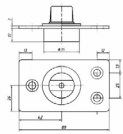

ACCESORII USI BATANTE

Pivot inferior cu rulment satinat KOR-110-12D

Cod produs: FR-00000031

Grosime sticla: 80 kg

Finisaj: satinat

Set balama inferioara cu amortizor incorporat si pivot pentru usa lemn/profil metalic KOR-80L , satinat

Cod produs: TC-00002875

Dimensiuni: 181 x 57 x 34 mm

Greutate maxi- mala: 100 kg

Tip: bidirectional, stop 90°

Finisaj: satinat

Set pivoti Inferior/superior pentru usa lemn-profil metal KOR-133L

Cod produs: TC-00002877

Greutate maxi- mala: 100 kg

Tip: bidirectional, stop 90°

Set usa batanta cu balama cu amortizor incorporat KOR-100 BTS, gold

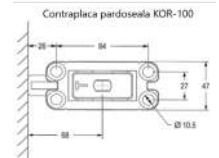

Cod produs: TC-00001772

Dimensiuni: 195 x 45 x 75 mm

Greutate maxi- mala: 100 kg

Grosime sticla: 8 - 12mm

Tip: Deschidere MAX. 180° bidirectional.

Set usa batanta cu balama cu amortizor incorporat KOR-100 BTS, satinat

Cod produs: TC-00001277

Dimensiuni: 195 x 45 x 75 mm

Greutate maxi- mala: 100 kg

Grosime sticla: 8 - 12mm

Tip: Deschidere MAX. 180° bidirectional.

Balama inferioara (excentrica) KOR-110E-L (stanga) satinat

Cod produs: TC-00001264

Grosime sticla: 10 - 12mm

Tip: stanga

Finisaj: satinat

Balama inferioara (excentrica) KOR-110E-R (dreapta) satinat

Cod produs: TC-00001265

Grosime sticla: 10 - 12mm

Tip: dreapta

 Dimensiuni: 52,7 x 26,5mm
 Lungimeba-
 ra: 6m.l.
 Finisaj: anodizat

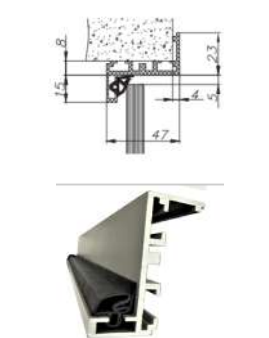

Toc zid L (kit) black (fixare pe perete)

Cod produs: TC-00002332
 Dimensiuni: 52,7 x 26,5mm
 Lungimeba-
 ra: 6m.l.
 Tip: sticla-perete
 Finisaj: negru

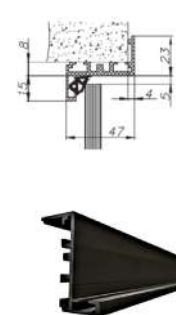

Toc zid Z (kit) anodizat (fixare pe perete)

Cod produs: TC-00000558
 Dimensiuni: 47 x 38mm
 Lungimeba-
 ra: 6m.l.
 Tip: sticla-perete
 Finisaj: anodizat

Toc zid Z (kit) black (fixare pe perete)

Cod produs: TC-00001253
 Dimensiuni: 47 x 38mm
 Lungimeba-
 ra: 6m.l.
 Tip: sticla-perete
 Finisaj: negru

USI AUTOMATE

MAGLEV SISTEM GLISANT AUTOMATIZAT

Sticlă - Perete

Sticlă - Sticlă

A8-5 Încuietore inteligentă

Yala Inteligentă pentru uși din sticlă are un sistem digital inteligent de deschidere prin amprente, card inteligent și parolă. Aceasta poate fi folosită în următoarele domenii:

- Rezidențial • Birouri • Hoteluri & Pensiuni

Caracteristici specifice:

- Deschidere cu ajutorul amprentelor digitale, a cardului inteligent și a parolei
- Cu funcție de sonerie
- Alarma de tensiune scăzută a bateriei, suportă conexiunea de alimentare de urgență.
- Sprijină blocarea combinată, adică siguranță dublă
- Funcția de parolă virtuală, suportă 20 de cifre.

Pentru informații tehnice, rugăm să ne contactați.

Adresă: sat. Mănăstirea, com. Crevedia, str. Dârzei 22, nr.235, jud Dîmbovița
 Email: vanzari@mdtrade.ro
 Site: www.mdtrade.ro

M300 Sistem automat de glisare

- Greutatea ușii 20-150 kg
- Viteza de deschidere 0,2-0,6m / s
- Viteza de închidere 0,2-0,6m / s
- Timp de oprire complet deschis 0-30s
- Temperatura -40°- 60°
- Putere nominală 120W
- Lungime pistă standard 2000mm
- Lungime pistă opțional: 2500mm ; 4000mm

Senzor de mână SNEL

- Senzor de mână sensibil la mișcare pentru medii igienice.
- Fără ecran, fără butoane, impermeabil la praf și apă
- Metoda de funcționare: senzor laser
- Dimensiune: 84x23 mm
- Temperatura funcționare: -10 ° C ~ + 60 ° C

Dimensiuni:

Material: inox

Lungime bara: 800 - 1300mm

Tip: perete-sticla

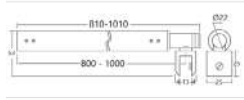

Finisaj: lucios

CABINE DE DUS

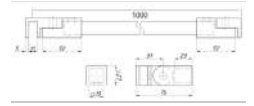

Bară stabilizatoare reglabila perete - sticla (8-10mm), rotunda KOR-618, 800 - 1000mm, lucios

Cod produs: TC-00000978
 Dimensiuni: 810 -1010 x Ø22 mm
 Material: inox
 Lungime bara: 800 - 1000mm
 Tip: perete-sticla
 Finisaj: lucios

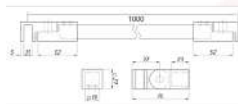

Bară stabilizatoare reglabila perete-sticla (8-10mm), pătrată KOR-618AP, 1000mm, lucios

Cod produs: TC-00002028
 Dimensiuni: 1000 x 27 mm
 Material: inox
 Lungime bara: 1000mm
 Tip: perete-sticla
 Finisaj: lucios

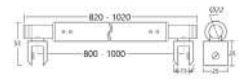

Bară stabilizatoare reglabila perete-sticla (8-10mm), pătrată KOR-618AP, 1000mm, satinat

Cod produs: TC-00002029
 Dimensiuni: 1000 x 27 mm
 Material: inox
 Lungime bara: 1000mm
 Tip: perete-sticla
 Finisaj: satinat

Bară stabilizatoare reglabila sticla-sticla (8-10mm), rotunda KOR-619, 800 - 1000mm, lucios

Cod produs: TC-00000979
 Dimensiuni: 820 -1020 x Ø22 mm
 Material: inox
 Lungime bara: 800 - 1000mm
 Tip: sticla-sticla
 Finisaj: lucios

Conector stabilizare perete-țevă 45° KOR-912A, gold

Cod produs: TC-00001859
 Dimensiuni: 58 x 27mm
 Culoare: gold
 Dimensiuni teava: Ø19mm

Conector stabilizare perete-țevă 45° KOR-912A, lucios

Cod produs: FR-00000078
 Dimensiuni: 58 x 27mm
 Culoare: lucios
 Dimensiuni teava: Ø19mm

Conector stabilizare perete-țevă 45° KOR-912A, satinat

Cod produs: TC-00000281

SISTEME INCHIDERI STICLA

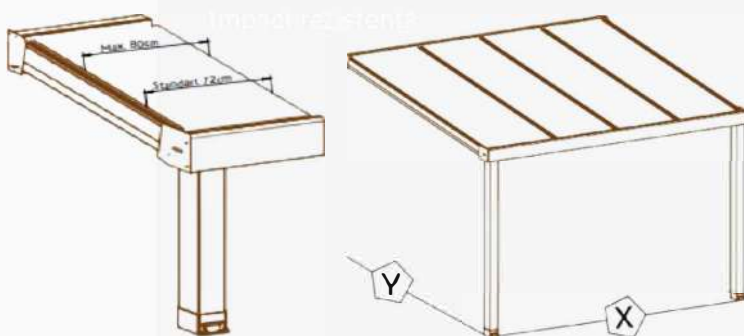

SISTEME DE UMBRIRE VERANDĂ

Veranda

Veranda este o soluție modernă de acoperișuri din sticlă pentru spațiile în aer liber, care nu doar îmbunătățește iluminarea naturală, ci și creează spații generoase și estetice. Prin caracteristicile sale avansate și posibilitatea de personalizare, această soluție va transforma grădina dvs. într-un colț de vis.

Veranda poate fi combinată cu alte produse cum ar fi Panorama și Sliding pentru a îmbunătăți experiența terasei. Designul estetic și geometria atent construită a Verandei vor revoluționa arhitectura proprietății dvs., prezentând o perspectivă cu adevărat modernă, cu o esență îndrăzneță de armonie și încântare.

Lățimea unui modul

Standard: 72 cm
Maxim: 80 cm

Numărul de module

Exemplu:
X: $600 / 72 = 8$ module
Y: 4 x 4 Sticlă securizată: Max. 400 cm

SISTEM TIP GHILOTINĂ

Ghilotină

Ghilotina este un sistem care permite mutarea pe verticală în sus și în jos a panourilor din sticlă doar cu o telecomandă, un smartphone sau o tabletă. Cu ajutorul sistemului Ghilotină, utilizatorul poate ajusta înălțimea panourilor de sticlă de la distanță pentru a lăsa cantitatea dorită de aer să pătrundă în încăpere.

Sistemul de ghilotina va transforma încăperile în zone mai spațioase, mai largi, mai luminoase și mai plăcute.

Tip de sistem	1 • 1	1 • 2	1 + 3
Ghilotină	Da	Da	Da
Ghilotină Thermo	Da	Da	Nu

Atunci când înălțimea totală a sistemelor diferă, opțiunea de reglare a înălțimii fixe a sticlei permite o estetică mai bună. Acest lucru se datorează faptului că aceeași înălțime fixă de sticlă va permite sistemelor să staționeze la același nivel atunci când sunt deschise

Dacă înălțimea cerută a sistemului este mai mare de 3,75m, profilele de sprijin special concepute sunt utilizate pentru a reduce oscilarea sticlei și pentru a crește rezistența acestora. Profilele pot fi utilizate în sisteme care constau din o sticlă fixă și una în mișcare.

Profilul balustradei nu este doar pentru un aspect estetic, ci și pentru siguranță. Previne blocajul degetelor atunci când sistemul este închis. Când sistemul este pornit, motorul este configurat să lase un spațiu de 1-2 cm între geamul în mișcare și geamul fix.

Atunci când sistemul este pornit, sistemele mobile sunt păstrate la 10 cm deasupra sticlei fixe. Dacă apare o problemă în sistem și o secțiune cu sticlă aflată în mișcare scapă de sub control, aceasta nu intră în contact cu solul. În acest fel, se iau măsuri de securitate pentru ferestrele mobile care se pot deplasa numai în șină și sunt împiedicate să lovească solul.

SISTEME CULISANTE CU PRAG PLAT

◀ Sprinter 08

Sprinter 08 este un sistem glisant cu prag plat și greutate distribuită pe șina inferioară cu 5 canale. Panourile se retrag în totalitate pe lateral, cu rulare spre stânga sau dreapta. Canalul de glisare permite culisarea a câte 5 panouri, în direcții opuse. Peria de etanșare este fixată pe verticală, între panouri.

Tip: închidere balcon/terasă cu geamuri glisante

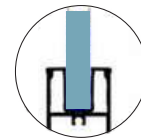

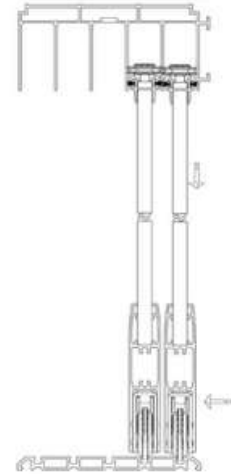

Grosime sticlă: 8mm

Finisaj profile: anod

Finisaj accesorii: negru

PANOURI CULISANTE ORIZONTALE

Panourile culisante sunt soluții de delimitare a spațiului interior pentru spații de locuit, birouri, centre comerciale, magazine, hoteluri, restaurante și multe altele, oferind o combinație între siguranță, funcționalitate și estetică. Panourile sunt ușor de ajustat, aliniat și manevrat. Pereții Glisabili Orizontali oferă o soluție distinctivă cu posibilitatea de adăugare a unui număr infinit de panouri, permițând partiționarea unor structuri mari datorită lățimii și înălțimii panourilor, precum și capacitatea de a transporta panouri grele datorită roților solide.

Tip: închidere cu geamuri glisante
Grosime sticlă: 8 / 10 mm
Finisaj profile: aluminiu eloxat / antracit
Finisaj accesorii: negru
Lățime max. panou: 800 mm
Înălțime max. panou: 3500 mm

◀ Sistem Momentum HD

Mișcare Lină și Sincronizată

Designul canalelor sistemului permite mișcarea sincronizată și liniștită a panourilor fără zgomot.

Închidere Ușoară la Sol

Sistemul de blocare la sol poate fi montat cu ușurință și fixează sistemul în loc.

Rotile Puternice

O singură roată poate suporta până la 150 kg, asigurând mișcarea perpetuă cu un minim de zgomot și frecare.

SISTEME CULISANTE CU GEAM TERMOIZOLANT

SlideMaster - sistemul de culisare cu izolație termică ridică standardele sistemelor de izolare pentru balcon. Sistemele glisante pot fi utilizate atât cu geam termoizolant, cât și cu un singur geam. Problema izolației insuficiente este rezolvată de sistemul de alunecare SlideMaster, care oferă vedere panoramică și eleganță fără utilizarea profilurilor de colț fixe. Sistemul are o vedere panoramică datorită panourilor sale speciale cu lățimea de până la 1,5 m. Aceste panouri pot fi închise/deschise confortabil cu ajutorul unor unități avansate de cărucioare și a sistemului său special de blocare.

SISTEME CULISANTE CU PRAG ASCUNS

Slider Next

În platforma **SliderNext**, puteți crea sisteme diferite folosind aceleași profiluri cu/fără versiuni de prag combinate cu sticlă de 8 sau 10 mm fără cadru sau cu cadru din aluminiu.

- Sunt oferite 5 sisteme diferite de blocare pentru soluții de siguranță. Un panou complet accesibil care duce la un sistem de curățare ușor este valabil cu toate încuietorile și conexiunile acceptabile (perete, centru, colț).
- Toleranță pentru erori! Orice erori de măsurare a sticlei pot fi eliminate cu ușurință până la 10 mm (20 mm în total) datorită profilelor verticale special concepute care se deplasează telescopic unul în celălalt.
- Slider Next oferă posibilitatea de a avea 2, 3, 4 sau 5 panouri de sticlă. Datorită posibilității de aplicare a panourilor late, se poate atinge dimensiunea maximă a acoperirii.
- Sticla de 8 mm sau 10 mm poate fi utilizată în Slider Next. Alegerea grosimii sticlei depinde de nivelul de izolație sau de caracteristicile locului de aplicare.

Tip: închidere cu geamuri glisante

Grosime sticlă: 8 mm, 10 mm

Finisaj profile: aluminiu eloxat

Finisaj accesorii: negru

Număr max. panouri: 5

Sistemele de închidere SliderNext au fost testate în conformitate cu normele stabilite de Uniunea Europeană

Impact rezistență

Izolație aer

Etanșeitate apă

Rezistență vânt

Vedere panoramică maximă

SliderNext are vedere panoramică datorită designului său special, care are o lățime de până la 1500 mm.

Montaj rapid și ușor

Instalați SliderNext cu ajutorul cutiilor all-in-one în cel mai rapid și mai simplu mod.

Ascundeți erorile de măsurare a sticlei

Este posibil să faceți alinierea sticlei până la 10 mm (20 mm în total) în SliderNext.

Opțiuni adaptabile

Sticla de 8 mm sau 10 mm poate fi utilizată în SliderNext.

Înălțimi prag opționale

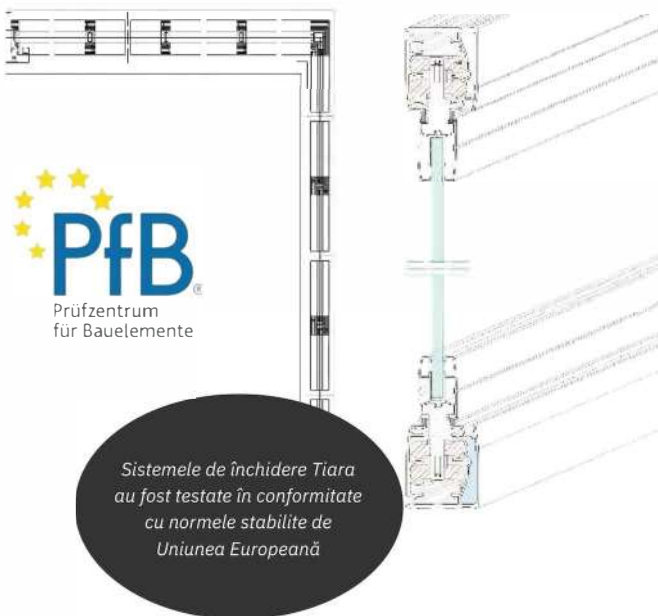

SliderNext poate fi utilizat pe un prag standard sau ridicat.

SISTEME GEAM BALCON

◀ Tiara 8 / 10

Tiara 10 este un sistem glisant, cu distribuirea greutateii pe ambele inele de rulare (sus-jos). Glisarea silențioasă a panourilor se realizează cu ajutorul roților din inox, acoperite cu plastic. Toți rulmenții și componentele folosite în sistem sunt executate din oțel inoxidabil, ceea ce sporește durata de viață a construcției finale.

Panourile se retrag în totalitate pe lateral, cu rulare spre stânga sau dreapta, unde sunt stopate de sistemul ABL (Auto Brake Lock). Acesta are funcția de stocare a panourilor cu posibilitatea acționării doar la solicitare. Drenaajul hidraulic este ascuns, fiind integrat în sina interioară. Acest profil permite sistemului să elibereze umiditatea formată în urma condensării.

Tip: închidere cu geamuri glisante

◀ Tiara SLIM

Oferă o vedere panoramică maximală pentru sistemele de balustradă.

$h_{\text{prag}} = 23.3 \text{ mm}$

◀ Tiara Zero

Oferă o trecere liberă datorită profilului încorporat în pardoseală.

$h_{\text{prag}} = 7.3 \text{ mm}$

SISTEME GLISANTE, CU IZOLAȚIE TERMICĂ

Sistemul de geamuri culisante cu izolație termică **Tiara Twinmax** este diferit atât prin funcționalitatea, cât și prin utilitatea sa. Pentru prima dată, garnitura magnetică, peria EPDM și garnitura EPDM sunt folosite împreună în același sistem, care contribuie la creșterea nivelului de izolare. Sistemul a fost dezvoltat pentru a fi utilizat cu ușurință ani la rând, fără a apela la vreun alt serviciu.

Tehnic, sistemul de geamuri culisante cu izolare termică pentru balcon, asigură o izolare de 5 ori mai mare în comparație cu balcoanele cu geamuri de sticlă obișnuite. Balconul dumneavoastră va menține temperatura aerului rece pe timpul verii, iar iarna va menține căldura.

SISTEME CULISANTE, CU PRAG

Huun 10 este un sistem glisant cu solutii variate de închidere. Panourile se retrag în totalitate pe lateral, cu rulare spre stânga, dreapta sau bidirecțional. Pot fi admise următoarele configurații: 3, 5 panouri într-o direcție sau 6, 10 în ambele direcții. Greutatea maximă a unui panou, poate atinge 100 kg pentru 2 carucioare. Conexiunea dintre geamuri este realizată pe verticală, profilele fiind dotate cu perie și garnitură, ce împiedică patrunderea apei, vântului și al prafului.

Glisarea silențioasă a panourilor se realizează cu ajutorul rulmenților, peste șina din oțel inoxidabil, ceea ce permite o mișcare lentă, cu efort minim și sporește durata de viață a construcției finale. Drenajul hidraulic este ascuns, fiind integrat în șina inferioară. Acest profil permite sistemului să elibereze umiditatea formată în urma condensării, iar capacele de îmbinare a colțurilor împiedică acumularea apei pe lateral.

BALUSTRADE DIN STICLA

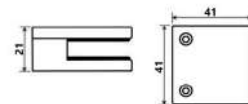

Clema fixare montant rectangular-sticla balustrada (8-10mm) MC-007F, satinat

Cod produs: TC-00002693
Dimensiuni: 55 x 60 x 26mm
Grosime sticla: 8-10mm
Material: zinc
Finisaj: satinat

Clema fixare montant rectangular-sticla balustrada (8-10mm) MC-104B pătrat, satinat

Cod produs: TC-00002692
Dimensiuni: 41 x 41 x 21mm
Grosime sticla: 8-10mm
Material: inox
Finisaj: satinat

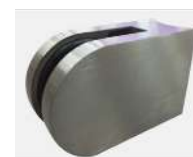

Clema inox fixare montant rotund-sticla balustrada (10-12mm) MC-05-L-R, lucios

Cod produs: TC-00000988
Dimensiuni: 68 x 45 x 27mm
Grosime sticla: 10-12mm
Material: inox
Finisaj: lucios

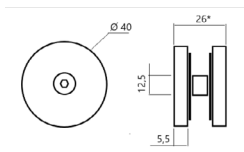

Clema inox fixare montant rotund-sticla balustrada (6-10mm) MC-05-L-R, satinat

Cod produs: TC-00000986
Dimensiuni: 68 x 45 x 27mm
Grosime sticla: 6-10mm
Material: inox
Finisaj: satinat

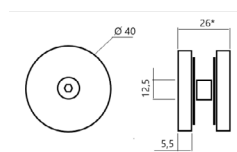

Conector aliniere sticla balustrada (12-16mm) MC-522-40, anod

Cod produs: TC-00002204
Dimensiuni: Ø40 x 26mm
Grosime sticla: 12-16mm
Material: aluminiu
Finisaj: anodizat

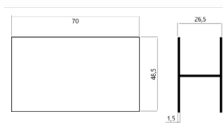

Conector aliniere sticla balustrada (12-16mm) MC-522-40, bronz

Cod produs: TC-00002205
Dimensiuni: Ø40 x 26mm
Grosime sticla: 12-16mm
Material: aluminiu
Finisaj: bronz

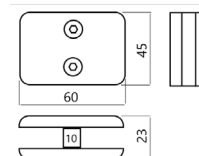

Conector aliniere sticla balustrada (16mm) cu garnitura MC-5072, anodizat

Cod produs: TC-00001603
Dimensiuni: 70 x 48,5 x 26,5mm
Grosime sticla: 16mm
Material: aluminiu
Finisaj: anodizat

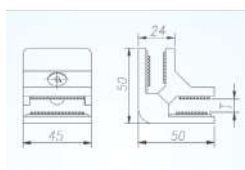

Conector aliniere sticla balustrada (8-12mm) la unghi de 180° MC-16-180, satinat

Cod produs: TC-00002245
Dimensiuni: 50 x 50 x 45mm
Material: aluminiu
Finisaj: satinat

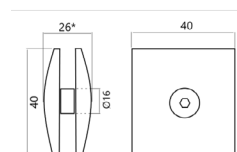

Conector aliniere sticla balustrada (8-12mm) la unghi de 90° MC-15-90, satinat

Cod produs: TC-00002244
Dimensiuni: 50 x 50 x 45mm
Material: aluminiu
Finisaj: satinat

Conector aliniere sticla balustrada (8-12mm) MC-10-5009, anod

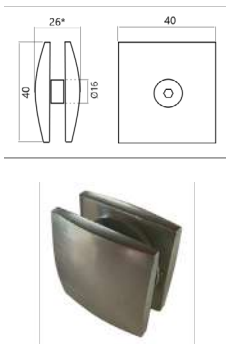

Cod produs: TC-00002770
Dimensiuni: 40 x 40 x 26mm
Grosime sticla: 8-12mm
Material: aluminiu
Finisaj: anodizat

BALUSTRADE DIN STICLA

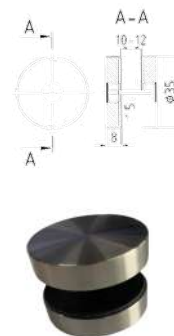

Conector aliniere sticla balustrada (8-12mm) MC-10-5009, bronz

Cod produs: TC-00002771
 Dimensiuni: 40 x 40 x 26mm
 Grosime sticla: 8-12mm
 Material: aluminiu
 Finisaj: bronz

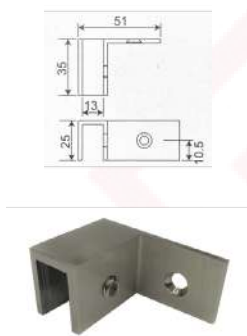

Conector aliniere sticla balustrada (8-12mm) MC-522, satinat

Cod produs: TC-00001455
 Dimensiuni: Ø35 x 26mm
 Grosime sticla: 8-12mm
 Material: Inox
 Finisaj: satinat

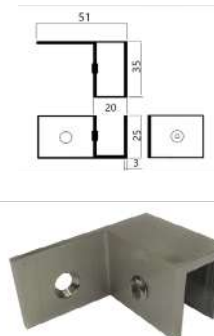

Conector aliniere sticla balustrada (8-13mm) prindere perete MC-M005L (stanga), satinat

Cod produs: TC-00002696
 Dimensiuni: 51 x 35 x 25mm
 Grosime sticla: 8-13mm
 Material: aluminiu
 Finisaj: satinat

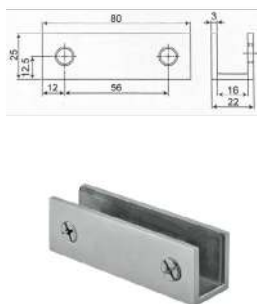

Conector aliniere sticla balustrada (8-13mm) prindere perete MC-M005R (dreapta), satinat

Cod produs: TC-00002697
 Dimensiuni: 51 x 35 x 25mm
 Grosime sticla: 8-13mm
 Material: aluminiu
 Finisaj: satinat

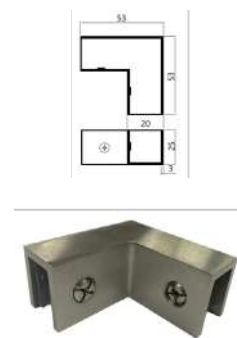

Conector aliniere sticla-sticla balustrada 180° (10-13mm) MC-M004, satinat

Cod produs: TC-00002018
 Dimensiuni: 80 x 22 x 25mm
 Grosime sticla: 10-13mm
 Material: aluminiu
 Finisaj: satinat

Conector aliniere sticla-sticla balustrada 90° (10-13mm) MC-M003, satinat

Cod produs: TC-00002017
 Dimensiuni: 53 x 20 x 26mm
 Grosime sticla: 10-13mm
 Material: aluminiu
 Finisaj: satinat

Scula pentru fixare cale balustrada KOR-5299

Cod produs: TC-00001511

Ventuza speciala dubla (100-120kg) Ø130mm, XP-YD2

Cod produs: TC-00002247

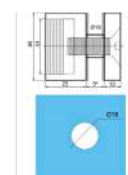

Ventuza speciala tripla (165-180kg) Ø118mm, XP-YD3

Cod produs: TC-00002246

Conector monopunct reglabil tip distantier pătrat (sticla 8-16mm) MC-40110P - 40x40x25mm, satinat

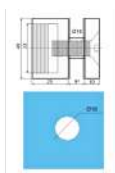

Cod produs: TC-00001473
 Dimensiuni: 40 x 40 x 25mm
 Grosime sticla: 8-16mm
 Material: inox
 Finisaj: satinat

BALUSTRADE DIN STICLA

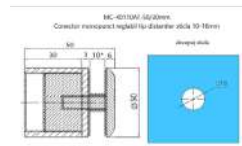

Conector monopunct reglabil tip distanțier pătrat (sticla 8-16mm) MC-40110PB - 40x40x25mm, black

Cod produs: TC-00002775
 Dimensiuni: 40 x 40 x 25mm
 Grosime sticla: 8-16mm
 Material: inox
 Finisaj: negru

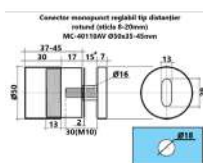

Conector monopunct reglabil tip distanțier rotund (sticla 10-16mm) MC-40110AT 30xØ50mm, satinat

Cod produs: TC-00002063
 Dimensiuni: 30 x Ø50mm
 Grosime sticla: 10-16mm
 Finisaj: satinat

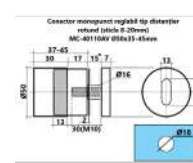

Conector monopunct reglabil tip distanțier rotund (sticla 10-16mm) MC-40110AV 35-45xØ50mm, black

Cod produs: TC-00002767
 Dimensiuni: 38-45 x Ø50mm
 Grosime sticla: 10-16mm
 Finisaj: negru

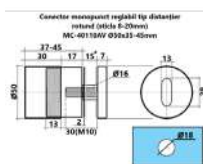

Conector monopunct reglabil tip distanțier rotund (sticla 10-16mm) MC-40110AV 35-45xØ50mm, bronz

Cod produs: TC-00002769
 Dimensiuni: 38-45 x Ø50mm
 Grosime sticla: 10-16mm
 Finisaj: bronz

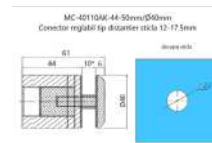

Conector monopunct reglabil tip distanțier rotund (sticla 10-16mm) MC-40110AV 35-45xØ50mm, gold

Cod produs: TC-00002768
 Dimensiuni: 38-45 x Ø50mm
 Grosime sticla: 10-16mm
 Finisaj: wgold

Conector monopunct reglabil tip distanțier rotund (sticla 12-17,5mm) MC-40110AK 44-50xØ40mm, satinat

Cod produs: TC-00002075
 Dimensiuni: 44-50 x 61 x Ø40mm
 Grosime sticla: 12-17,5mm
 Finisaj: satinat

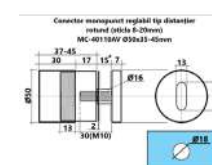

Conector monopunct reglabil tip distanțier rotund (sticla 10-16mm) MC-40110AV 35-45xØ50mm, lucios

Cod produs: TC-00002378
 Dimensiuni: 38-45 x Ø50mm 23 x 25mm
 Grosime sticla: 10-16mm
 Finisaj: lucios

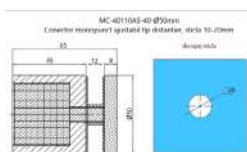

Conector monopunct reglabil tip distanțier rotund (sticla 10-16mm) MC-40110AV 35-45xØ50mm, satinat

Cod produs: TC-00002570
 Dimensiuni: 38-45 x Ø50mm
 Grosime sticla: 10-16mm
 Finisaj: satinat

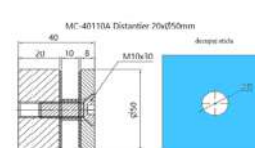

Conector monopunct reglabil tip distanțier rotund (sticla 10-20mm) MC-40110AS 45xØ50x65mm, satinat

Cod produs: TC-00001100
 Dimensiuni: 45 x Ø50 x 65mm
 Grosime sticla: 10-20mm
 Finisaj: satinat

Conector monopunct tip distanțier rotund (sticla 8-12mm) MC-40110A 20x50mm, satinat

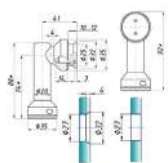

Cod produs: TC-00001133
 Dimensiuni: 20 x Ø50 x 40mm
 Grosime sticla: 8-12mm
 Finisaj: satinat

BALUSTRADE DIN STICLA

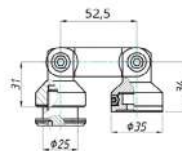

Conector nereglabil 90° perete-sticla (10-12mm) MC-807A (cu șanfen), satinat

Cod produs: TC-00000362
 Dimensiuni: 92 x 50 x Ø35mm
 Grosime sticla: 10-12mm
 Greutate maximala: 30kg
 Finisaj: satinat

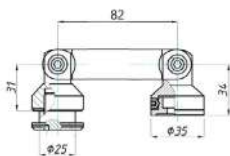

Conector reglabil perete-sticla (8-12mm) MC-803A 52,5mm, satinat

Cod produs: TC-00000361
 Dimensiuni: 128 x Ø35mm
 Grosime sticla: 8-12mm
 Greutate maximala: 30kg
 Finisaj: satinat

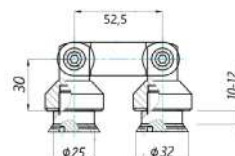

Conector reglabil perete-sticla (8-12mm) MC-803A 82mm, satinat

Cod produs: TC-00000608
 Dimensiuni: 160 x Ø35mm
 Grosime sticla: 8-12mm
 Greutate maximala: 30kg
 Finisaj: satinat

Conector reglabil sticla-sticla 10-12mm MC-803 52,5mm (cu șanfen), satinat

Cod produs: TC-00000882
 Dimensiuni: 74 x 50 x Ø35mm
 Grosime sticla: 10-12mm
 Greutate maximala: 30kg
 Finisaj: satinat

Cot la 90° cu canal sticla pentru mana curenta (Ø50mm) MC-29-26, anodizat

Cod produs: TC-00001245
 Dimensiuni: 80 x 80 x Ø50 mm
 Material: aluminiu
 Finisaj: anodizat

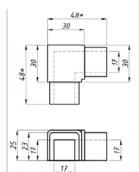

Cot la 90° cu canal sticla pentru mana curenta (Ø50mm) MC-29-26, bronz

Cod produs: TC-00001246
 Dimensiuni: 80 x 80 x Ø50 mm
 Material: aluminiu
 Finisaj: bronz

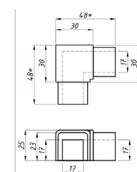

Cot la 90° mana curenta (28x25mm) MC-6540KD, anodizat

Cod produs: TC-00001509
 Dimensiuni: 48 x 30 x 25mm
 Material: aluminiu
 Finisaj: anodizat

Cot la 90° mana curenta (28x25mm) MC-6540KD, bronz

Cod produs: TC-00002408
 Dimensiuni: 48 x 30 x 25mm
 Material: aluminiu
 Finisaj: bronz

Cot la 90° mana curenta (28x30mm) MC-111, anodizat

Cod produs: TC-00001235
 Dimensiuni: 59 x 33 x 35mm
 Material: aluminiu
 Finisaj: anodizat

Cot la 90° mana curenta (28x30mm) MC-111, bronz

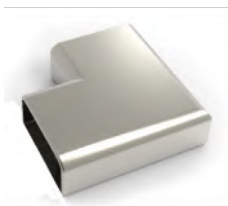

Cod produs: TC-00001367
 Dimensiuni: 59 x 33 x 35mm
 Material: aluminiu
 Finisaj: bronz

BALUSTRADE DIN STICLA

Cot la 90° mana curenta (60x25mm) MC-111, anodizat

Cod produs: TC-00000994
 Dimensiuni: 88 x 66 x 31mm
 Material: aluminiu
 Finisaj: anodizat

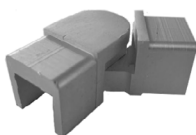

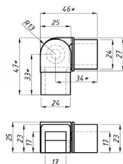

Cot la 90° mana curenta (60x25mm) MC-111, bronz

Cod produs: TC-00001370
 Dimensiuni: 88 x 66 x 31mm
 Material: aluminiu
 Finisaj: bronz

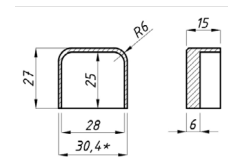

Cot reglabil mana curenta (28x25mm) MC-6540V, anodizat

Cod produs: TC-00001508
 Dimensiuni: 68 x 27 x 25mm
 Material: aluminiu
 Finisaj: anodizat

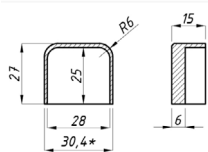

Dop de capăt mana curenta (28x25mm) MC-6540TA, anodizat

Cod produs: TC-00001506
 Dimensiuni: 27 x 30 x 15mm
 Material: aluminiu
 Finisaj: anodizat

Dop de capăt mana curenta (28x25mm) MC-6540TA, bronz

Cod produs: TC-00002409
 Dimensiuni: 27 x 30 x 15mm
 Material: aluminiu
 Finisaj: bronz

Dop de capăt mana curenta (28x30mm) MC-110, anodizat

Cod produs: TC-00001230
 Dimensiuni: 28 x 30mm
 Material: aluminiu

Mana curenta tip U cu garnitura sticla (12mm) MC-6540-12, bronz

Cod produs: TC-00002404

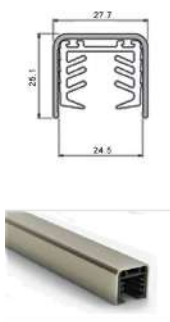

Dimensiuni: 28 x 25mm

Grosime sticla: 6+6mm

Lungime bara: 6m.l.

Material: aluminiu

Finisaj: bronz

Mana curenta tip U cu garnitura sticla (16mm) MC-6540-16, anodizat

Cod produs: TC-00001503

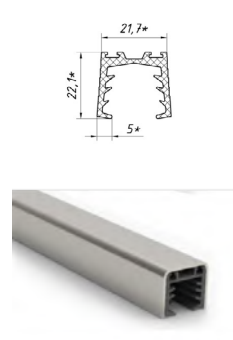

Dimensiuni: 28 x 25mm

Grosime sticla: 8+8mm

Lungime bara: 6m.l.

Material: aluminiu

Finisaj: anodizat

Mana curenta tip U cu garnitura sticla (16mm) MC-6540-16, bronz

Cod produs: TC-00002405

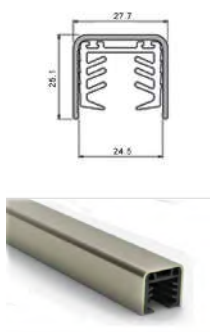

Dimensiuni: 28 x 25mm

Grosime sticla: 8+8mm

Lungime bara: 6m.l.

Material: aluminiu

Finisaj: bronz

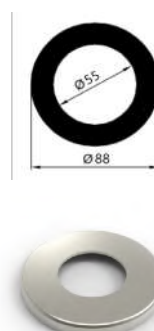

Masca flanșă perete - mana curenta (Ø50mm) MC-17-06A, anodizat

Cod produs: TC-00001227

Dimensiuni: Ø55 x Ø88mm

Material: aluminiu

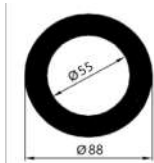

Finisaj: anodizat

BALUSTRADE DIN STICLA

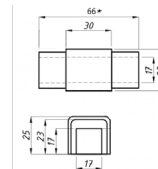

Masca flanșă perete - mana curenta (Ø50mm) MC-17-06A, bronz

Cod produs: TC-00001228
 Dimensiuni: Ø55 x Ø88mm
 Material: aluminiu
 Finisaj: bronz

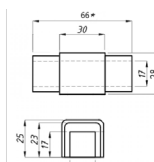

Piesa îmbinare mana curenta (28x25mm) MC-6440B, anodizat

Cod produs: TC-00001510
 Dimensiuni: 66 x 28 x 25mm
 Material: aluminiu
 Finisaj: anodizat

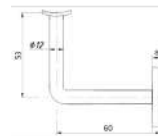

Piesa îmbinare mana curenta (28x25mm) MC-6440B, bronz

Cod produs: TC-00002653
 Dimensiuni: 66 x 28 x 25mm
 Material: aluminiu
 Finisaj: bronz

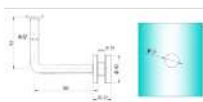

Suport mana curenta prindere pe perete MC-413W, satinat

Cod produs: TC-00002694
 Dimensiuni: 53 x 60 x Ø54 mm
 Material: aluminiu
 Finisaj: satinat

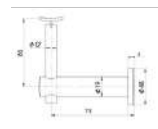

Suport mana curenta prindere pe sticla (8-10mm) MC-413G, satinat

Cod produs: TC-00002695
 Dimensiuni: 60 x 53 mm
 Material: aluminiu
 Finisaj: satinat

Suport reglabil prindere perete-mana curenta MC-9WP, satinat

Cod produs: TC-00002479
 Dimensiuni: 73 x 86 x Ø48 mm
 Material: aluminiu
 Finisaj: satinat

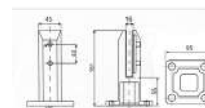

Suport reglabil prindere sticla-mana curenta MC-9GP, satinat

Cod produs: TC-00002480
 Dimensiuni: 75 x 86 mm
 Material: aluminiu
 Finisaj: satinat

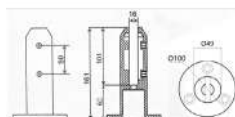

Montant balustrada sticla h161mm (sticla 10-13.5mm) MC-SC-14 SSS (patrat), satinat

Cod produs: TC-00002076
 Dimensiuni: 105 x 161 x 45 mm
 Grosime sticla: 10-13.5 mm

Flanșă perete - mana curenta cu canal pentru LED (Ø50mm) MC-9183F, bronz

Cod produs: TC-00002525
 Dimensiuni: Ø75 x 25mm
 Material: aluminiu
 Finisaj: bronz

Sticla Securizata

STICLĂ SECURIZATĂ

Principalul motiv pentru care sticla securizată este mult mai sigură și mai rezistentă decât sticla standard este procesul special de fabricație prin care trece. Aceasta este produsă printr-un proces de încălzire controlată, urmat de o răcire rapidă. Această metodă contribuie la formarea unei structuri mai uniforme și durabile, care, în caz de spargere, determină descompunerea sticlei în bucăți mici și mai puțin periculoase, spre deosebire de cioburile mari și ascuțite ale sticlei standard. Astfel, sticla securizată devine mult mai sigură și mai rezistentă la impact sau zgârieturi decât sticla obișnuită, netratată.

Grosimile sticlei și domeniile de aplicare

- 4 mm** utilizat în ferestre, rame pentru tablouri, unități izolate etc.
- 6 mm** utilizat la mese (ca acoperire de protecție), unități izolate, rafturi etc.
- 8 mm** utilizat pe blaturi de masă, rafturi ușoare, uși de duș încadrate etc.
- 10mm** utilizat la uși de duș, mese, delimitări din sticlă, balustrade
- 12 mm** utilizat la uși de duș, pereți de sticlă, delimitări din sticlă, balustrade
- 16 mm** utilizat la uși de duș, pereți de sticlă, delimitări din sticlă, balustrade
- 20 mm** utilizat pentru uși de sticlă, fațade, acoperiș din sticlă, podele din sticlă etc.

Cioburi de sticlă securizată

Cioburi de sticlă standard

Tipuri de sticlă securizată

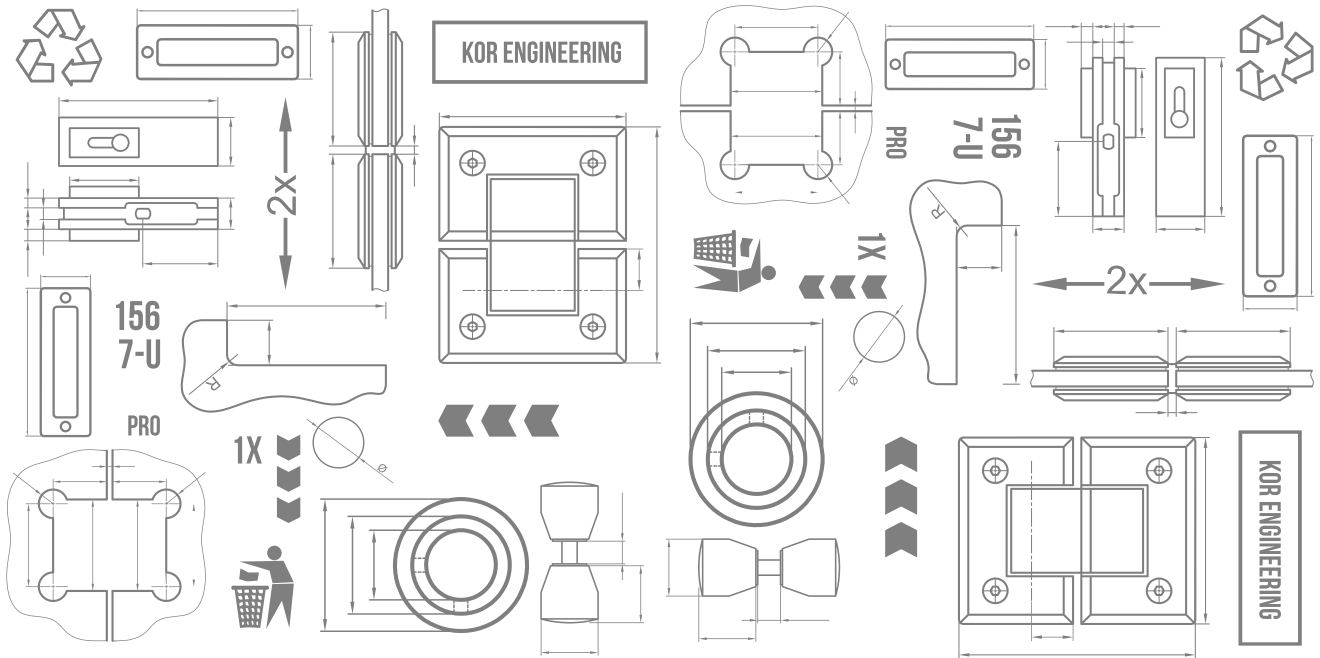

Servicii opționale

Culori la alegere

La dorința dumneavoastră sticla poate avea orice culoare vă doriți.

Prelucrare anti-calcar

La solicitarea clientului, prelucrăm sticla cu soluție anti-calcar. Această soluție nu doar vă salvează de aburi și depuneri nedorite pe sticlă, dar și prelungeste durata de funcționalitate a cabinei de duș sau a paravanului din baie.
